SMART HOME
COME TO LIFE

comwareAV
Audio • Video • Network • Lighting

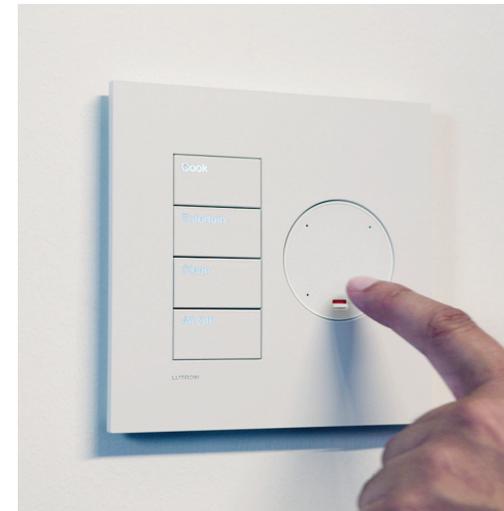

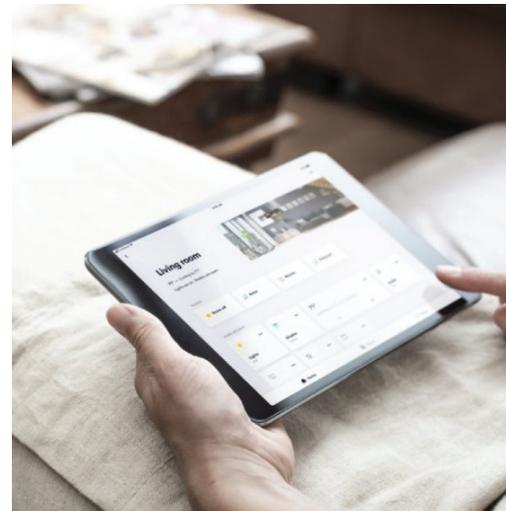

WHO WE ARE

Founded with an entrepreneurial spirit and a passion for luxury, Comware AV transforms both residential and commercial properties by integrating high-end smart home and commercial technology. Our expert team designs, engineers, installs, programs, and supports sophisticated audio/video systems tailored for clients across Texas, Colorado, Florida, and beyond.

We blend smart technology with elegant design to empower homeowners and business operators with intuitive control over premium audio, video, lighting, home theater, networking, and security solutions.

Every installation is meticulously crafted to enhance both functionality and aesthetics, creating a refined, sophisticated environment. Comware AV is committed to excellence—continuously pursuing the latest innovations and advanced training to deliver cutting-edge technology solutions that meet today's demands and anticipate tomorrow's trends.

With us, you experience the perfect blend of luxury, innovation, and reliability—transforming your property into a modern, elegant sanctuary that reflects your distinctive lifestyle.

WHAT WE DO

At Comware AV, we revamp luxury living spaces by delivering state-of-the-art smart home and commercial AV technology solutions. We specialize in designing, engineering, and installing custom systems that integrate audio/video, lighting, home automation, and more. As an HTA-certified design partner, we pride ourselves on working closely with interior designers—our primary focus—as well as architects, builders, and other design professionals to bring sophisticated projects to life.

Our expertise spans every facet of the industry, from comprehensive home theater setups to high-end lighting solutions and turnkey automation systems. We also drive innovative sales for premium brands like Ketra, making sure that our clients receive the latest in cutting-edge technology. With a commitment to quality and personalized service, Comware AV collaborates with leading industry professionals to create environments that look exquisite and function with zero hassle. Let us help you bring your next project to life with tailored solutions designed for modern, luxury spaces!

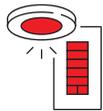

AREAS OF EXPERTISE

As home technology has evolved, so has Comware AV. Today, we provide a comprehensive range of services that extend beyond audio and video entertainment - encompassing advanced networking, smart lighting and automated shades, home automation, security systems, and more.

Smart Home Technology

- + Integrated control of lighting, entertainment, climate, and security systems
- + Effortlessly create the perfect ambiance for any activity or time of day - adjusting lights, temperature, audio, video, and security settings
- + Access and manage your home remotely, from lighting and surveillance to intercom and communication features
- + Intuitive, customized control through sleek keypads, touchscreens, AV remotes, and smart device apps

Advanced Lighting

- + Home lighting control solutions designed for simplicity, efficiency, and style
- + Modern LED technology for ambient and accent lighting that complements your interior design
- + Dynamic color and tunable white lighting enhances both comfort and visual appeal throughout your home
- + Effortless control of multiple lighting zones with one-touch scenes, scheduling, motion sensors, and presence detection
- + Thoughtfully placed landscape and outdoor lighting to showcase your property and create welcoming outdoor environments

Automated Shades

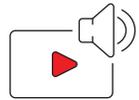

- + Motorized window treatments that optimize natural light and comfort throughout your home
- + Improve energy efficiency by retaining warmth in winter and blocking heat during summer
- + Easily manage shades to protect furnishings from sun damage and maintain privacy with the touch of a button

Security & Surveillance

- + High-performance security cameras with crystal-clear resolution and intelligent detection features
- + Comprehensive perimeter coverage designed using plat surveys, satellite imagery, and tailored camera placement
- + Receive instant alerts for activity that matters most to you
- + Unified control of video doorbells, smart locks, window treatments, and lighting - bringing privacy and security together in one smart system

Audio/Video Entertainment

- + Integrated media systems with discreetly built-in TVs, speakers, and easy-to-use controls
- + In-ceiling speakers designed to match the look and feel of overhead lighting for a clean aesthetic
- + Audio that lets you enjoy any music or source in any room - with intuitive, centralized control
- + Multi-room video distribution for streamlined access to all your content with a consistent interface across every display
- + High-performance sound systems fine-tuned with precision calibration and acoustic treatments for exceptional listening
- + Elegant concealment of AV tech using custom furniture, hidden speakers, motorized mounts, artwork, and mirror displays

Networking & Connectivity

- + Robust wiring and cabling infrastructure to support fast, reliable connections across the entire property
- + Commercial-grade routers, switches, and access points deliver high bandwidth and performance for every device
- + Smart network design tailored to your home's layout, materials, and usage needs
- + Secure configurations that prioritize speed and coverage while protecting against security threats

Home Theater

- + Fully immersive home theaters featuring large screens, cinematic surround sound, dynamic lighting, and smart automation
- + Discreet projector systems that retract into the ceiling for a clean, multipurpose space
- + Built-in speakers and under-floor subwoofers for powerful, unobtrusive audio
- + Custom seating layouts tailored to your space - whether formal, casual, or somewhere in between
- + Expert acoustic treatments to enhance sound quality and deliver a true theater experience at home

Outdoor Entertainment

- + Speakers designed to blend effortlessly into patios, gardens, and landscape designs
- + Weatherproof TVs perfect for patios, pool areas, and outdoor kitchens
- + Outdoor audio fully integrated with your multi-room sound system for a cohesive listening experience
- + Landscape lighting that enhances safety, extends usability, and highlights outdoor features
- + Unified control of outdoor entertainment, lighting, and amenities through your smart home system

PARTNERS WE WORK WITH

+ Architects

- Present smart automation, lighting, entertainment, and security options that align with the project vision
- Provide detailed system drawings to integrate with architectural plans
- Collaborate on efficient use - or addition - of space for centralized equipment and infrastructure
- Coordinate speaker and lighting selections that maintain a clean, cohesive architectural aesthetic
- Work together to design discreet technology solutions hidden within walls, ceilings, and custom features

+ Interior Designers

- Integrate technology that complements the design vision - never distracts from it
- Collaborate with trades and craftsmen to blend tech into furnishings and finishes
- Provide motorized shading solutions and window treatments tailored to your aesthetic
- Partner on lighting and control options that balance functionality with visual appeal

+ Custom Home Builders

- Collaborate as a trusted technology partner to deliver tailored smart home solutions for buyers
- Offer wireless retrofit options for lighting, automation, and entertainment with minimal disruption
- Provide experienced project management that ensures smooth integration without impacting timelines

+ Developers

- Partner on integrated solutions for lighting control, motorized shades, and AV systems—customizable for each client
- Pre-wire and prepare infrastructure to support smart features in common areas
- Coordinate closely with project managers to align technology with construction schedules and design plans
- Provide curated technology packages, including shading and lighting control, ideal for luxury penthouses and upscale units

MARKETS WE SERVE

CEDIA®

CEDIA is the leading global trade association for companies that design, build, and integrate residential technology systems. Membership offers access to specialized training, certifications, and industry advocacy - helping integrators stay ahead in a rapidly evolving field. As a proud CEDIA member, Comware AV is committed to ongoing education and technical excellence, making sure that every project reflects the highest standards in smart home integration.

HTA CERTIFIED ESTATE

The Home Technology Association (HTA) is an independent organization that certifies the most qualified and trusted technology integrators in the industry. HTA Certified firms meet rigorous standards for technical expertise, customer service, and proven performance. By choosing a company like Comware AV that's certified at the Estate Level, you can be confident you're working with professionals who deliver exceptional results and take unmatched care of their clients—ensuring your home technology experience exceeds expectations.

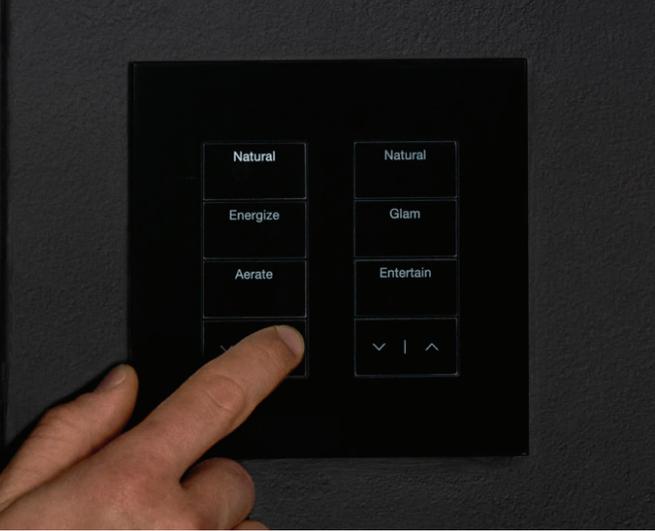

PROSOURCE

ProSource is a national buying group and professional organization made up of the leading custom integrators and AV specialists across the country. Membership provides access to exclusive vendor partnerships, advanced training, and collaborative industry insights - allowing members to deliver top-tier technology solutions with greater value. As a ProSource member, Comware AV stays connected to the latest innovations and best practices, ensuring our clients receive the highest level of expertise and service.

AUDIO/VIDEO

Experience immersive multimedia with premium audio and video solutions designed for both luxury residences and commercial environments. Our audio offerings feature the exceptional sound quality of Focal and Origin Acoustics, delivering precise, crystal-clear performance that transforms any space into an acoustically dynamic haven. On the video side, we excel in the design and installation of high-end video walls, with a particular emphasis on MicroLED technology from leading brands like Sony. These impressive displays offer stunning image clarity and vibrant colors, ideal for captivating presentations, immersive home theaters, or engaging commercial installations. By seamlessly integrating these high-performance systems, we help elevate your audiovisual experience, making sure that every interaction is both impactful and inspiring.

LIGHTING & SHADING

Our smart lighting control solutions always blend technology and elegance. Our systems integrate motorized shades and drapes with premium lighting from Ketra and Lutron, empowering you to adjust your environment effortlessly to suit every mood and moment. With intuitive controls that harness natural light, you can optimize energy efficiency while creating dynamic, customizable lighting scenes. Whether setting the stage for a cozy evening, providing privacy, or highlighting architectural features, our solutions combine the best in automated window treatments and brilliant lighting technology, boosting both the beauty and functionality of your spaces!

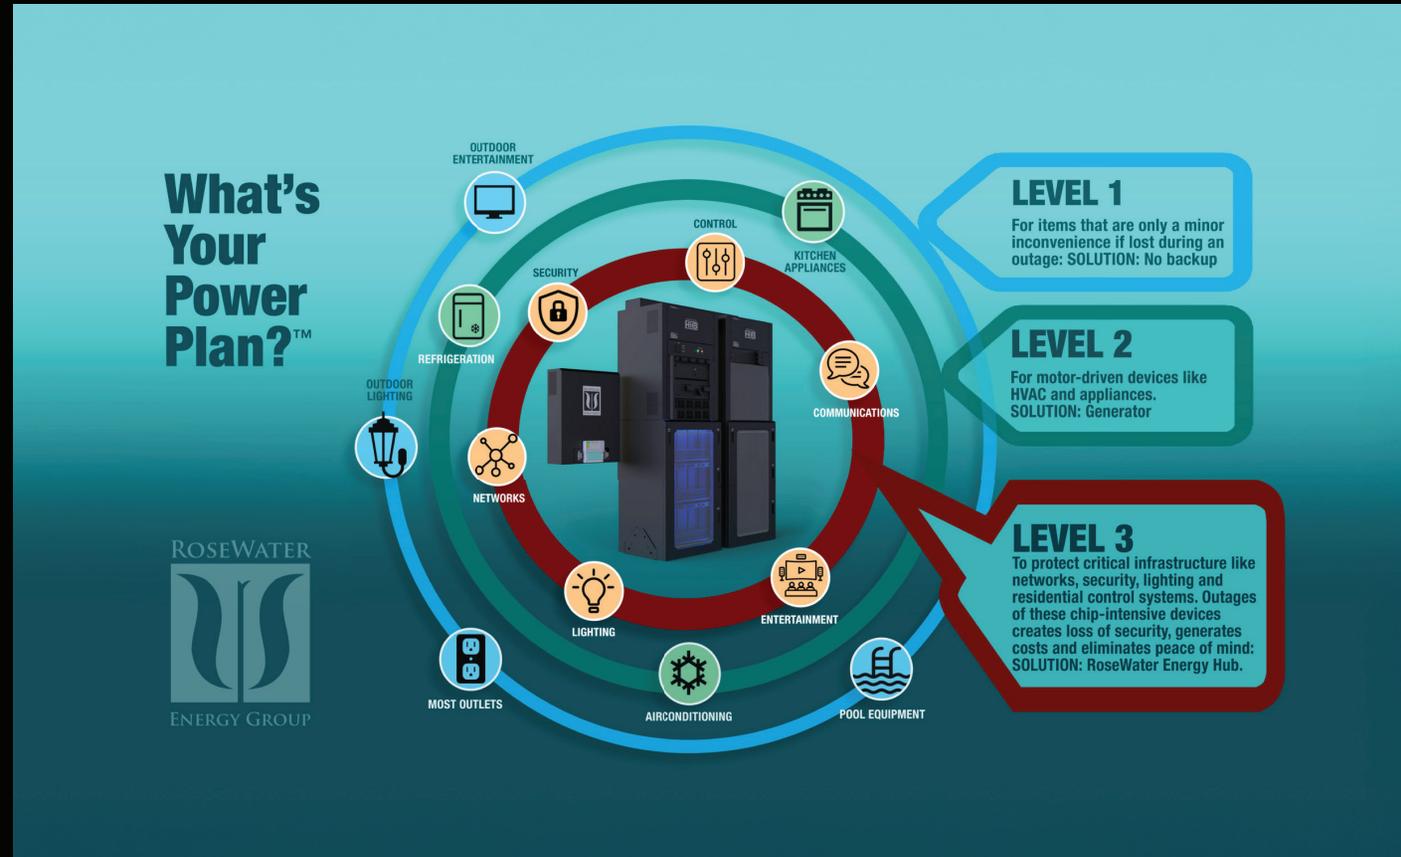

CONTROL/HOME AUTOMATION

Take command of your home with our smart control and home automation solutions, featuring industry leaders, such as Crestron Home, Josh.ai, Elan, and Control4. Our systems offer exceptional integration of lighting, climate, security, and entertainment, all managed through a unified, intuitive interface. Whether you're using touch controls, voice commands, or remote access, you can easily tailor your environment to fit your lifestyle, from setting the perfect ambiance for a relaxing evening to ensuring optimal energy efficiency throughout your property. Designed with both innovation and elegance in mind, these solutions adapt to your daily routines and seasonal changes, offering personalized automation that simplifies your life and improves your home's functionality. With our commitment to quality and top-notch technology, you'll enjoy modern, responsive living spaces that remain at the forefront of smart home advancements.

ENERGY AUTOMATION

Optimize energy efficiency and reliability with trusted energy automation solutions from RoseWater, Apex Technologies, and Transient Protection Design. These systems provide top-tier power management, delivering a stable, uninterrupted energy supply while maximizing efficiency. Whether integrating backup power solutions, surge protection, or intelligent energy monitoring, our automation technology safeguards your home or business against outages and fluctuations. By leveraging renewable energy sources and smart distribution systems, you gain greater control over consumption, reducing costs and environmental impact. With advanced energy automation in place, your property will remain powered, protected, and optimized for long-term sustainability!
